

## **MODULE - 6**

### **ADDITIONAL LEARNING RESOURCES**

This module will provide the student with additional resources that can be used to augment and enhance the concepts presented in this introductory course. Many of the resources provided are websites of various manufacturers of fire protection systems and components which offer the student detailed information on the theory, application, and construction of various fire protection systems.

It is recommended that the student have Adobe Acrobat Reader® to access and view much of the material by various manufacturers that is provided in the .pdf format. (Adobe Acrobat Reader® can be downloaded free of charge off the internet.)
